

Green Development recognizes:

PLUS TECHNOLOGIES

As a Climate Positive Organization, for having quantified its Organizational Carbon Footprint originating from the administrative and operational activities carried out at its offices in the United States and Guatemala and its department in Mexico during the year 2025, and for having offset a volume of emissions exceeding those generated through verified carbon credits, achieving a net positive carbon balance.

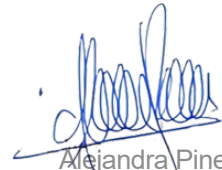

RECOGNITION VALID UNTIL JUNE 2027

The study was conducted according to the ISO 14064-1:2018 Standard, under the guidelines of the Greenhouse Gas Protocol (GHG Protocol), with an Operational Control approach, considering Scope 1, 2, and 3 emissions

GD grants the following recognition:

Green Footprint ® Climate Positive **GD-2026-1143**
